I have tried both the professional and free versions of Recuva Although the free version doesn't have any limit, some files that can be found by Recuva Professional won't appear after quick/deep scanning with the free version;Virtual disk support is exclusive to Recuva Professional.. Indeed, Recuva offers a free full version that allows users to search and recover deleted files without limits.. What the data recovery program does is merely scan your hard drive for the deleted data.. The main differences between the two versions are:Recuva Professional has ahigher recovery rate.
